SERVICE-LEARNING COMMUNITY PARTNER PROFILE

HABITAT FOR HUMANITY

Mission Statement: Habitat for Humanity Fresno County seeks to end poverty housing in the county of Fresno by uniting individuals, families and communities to build decent, affordable housing. We work in partnership with God and people everywhere, from all walks of life, to develop communities with God's people in need by building and renovating houses so that there are decent houses in decent communities in which people can live and grow into all that God intended. Habitat is based on the conviction that Christian discipleship must be lived out in practical ways which help to lift burdens from the shoulders of others.

Services Provided: While Habitat for Humanity Fresno County is committed to getting families into houses, we also work with partner families to assure the experience of home ownership is positive and successful over the long term. Families are trained and supported in a variety of skills: basic construction skills to assist in the building of their house; home maintenance skills; various home improvement and interior design skills; neighborhood involvement and cooperation skills; budgeting and consumer awareness skills; and others as the need arises.
