SULLIVAN CENTER FOR CHILDREN

Mission: “The mission of the Sullivan Center Foundation is to fund and establish quality mental health services for children, adolescents and their families. The Foundation’s efforts are based on the philosophy that comprehensive mental health services for children must be available in the community and accessible to all children and families who need them. The Foundation will educate the community regarding the need to prioritize research and treatment in the area of childhood emotional, behavioral, neurodevelopment, and social pathology. It will seek funding through fund raising events, donations, and grants for the purpose providing multidisciplinary study and state of the art treatment of these types of childhood disorders.”

Services Provided: Psychotherapy, Medication, Forensics, Comprehensive Assessments, and Special Services.
